BIOGRAPHY

Retrace The Lines are a six-piece modern metal band from Valencia, Spain, forged in 2010 and built entirely on a relentless DIY mentality: booking, recording, filming and designing their own world, with no label behind them. Over five releases, more than 75 shows across Europe and Asia, and a 13-date tour through China and Japan, the band has earned a reputation for turning every stage into a high-impact collision of precision, melody and pure aggression.

At home they built Retrace The Fest, their own festival in Valencia, now two editions in. In June 2026 they played Hellfest Le Off in Clisson, France.

Dopamine (2025) pushed that identity into a new level: more than 120,000 Spotify streams and a video that travelled far beyond the Spanish scene. PAIN, out now with its own video, opens the next chapter: Project: Anomaly, a conceptual EP produced, mixed and mastered by Christoph Wieczorek at Sawdust Recordings, whose credits include Electric Callboy, Annisokay, Novelists and Future Palace. Release date to be announced.

The EP comes wrapped in its own world: The Stability Office, an interactive experience built by the band, is already open at stabilityoffice.org. Precise, melodic and heavy enough to leave a mark, Retrace The Lines are not arriving quietly. They are arriving to be noticed.

FREE TO QUOTE AND EDIT – PLEASE KEEP THE BAND NAME AS "RETRACE THE LINES". LINE-UP AND PHOTOS ON PAGE 4.
